

YOUR RELIABLE PARTNER *For*

Drilling Tools, Spare Parts,
Equipments and Machineries

 DUBAI, UAE

ATR is the professional supplier of Drilling Tools, Spare Parts, Equipments and Machineries for the Industries of Mining & Quarrying, Water Well, Geotechnical, Construction & Foundation Industries in Dubai, UAE. Our solutions are designed to cater to the needs of water well drilling, geotechnical, and mining Industry. We offer a comprehensive range of equipment and services that includes spare parts, tools and technical support related to the mining and drilling industry.

Our team of experienced professionals provides customized solutions to help our customers optimize their equipment performance and reduce downtime. We are committed to delivering quality solutions and excellent customer service to our customers in the Middle East and African regions.

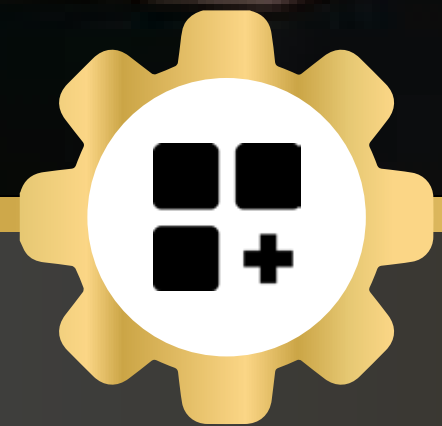

WHY ATR

At ATR DRILL we take pride in providing high-quality Drilling and Mining products and services that meet the unique needs of our customers.

OUR PRODUCTS

DTH and RC Hammers

DTH (Down the Hole) and RC (Reverse Circulation) drilling are two commonly used techniques in the mining, construction, and exploration industries. DTH drilling uses a pneumatic hammer to break up rock into small pieces that can be removed by air flow, while RC drilling uses a rotating drill bit and compressed air to drive cuttings up and out of the hole. DTH drilling is often used for deep drilling in hard rock formations, while RC drilling is well-suited for drilling through soft to medium-hard rock. Both techniques are known for their efficiency and effectiveness in drilling through hard materials, making them essential tools in various industries.

Drilling Pipes and Accessories

As a leading supplier of drilling pipes and accessories, ATR DRILL offers a wide range of high-quality products for various drilling applications. Our drill pipes are made from top-grade steel to ensure optimal performance and durability. We also provide a wide selection of accessories, including drill bits, hammers, collars, subs, stabilizers, and reamers, which are compatible with different drilling systems.

Our experienced team is dedicated to providing exceptional customer service, offering expert advice and support in selecting the right drilling pipes and accessories based on our customers' unique needs. We prioritize safety and quality in all our products and services, ensuring that our customers have a successful and safe drilling operation. With a commitment to timely delivery and competitive pricing, ATR DRILL is the trusted choice for drilling pipes and accessories.

Drilling Fluids & Lubrication

ATR DRILL is a trusted supplier of high-quality drilling fluids and lubrication products for the drilling industry. Our drilling fluids are specially formulated to ensure maximum performance in various drilling applications, while our lubrication products help reduce friction and wear on drilling equipment.

Our range of drilling fluids includes water-based, oil-based, and synthetic fluids that are customized to meet the specific needs of our customers. At ATR DRILL, we prioritize safety and quality in all our products and services, ensuring that our customers have a safe and successful drilling operation. Our experienced team can advise and support in selecting the right drilling fluids and lubrication products for each project.

UPVC Casing and Screens

We offer a wide range of uPVC pipes, including threaded, plain-end, and perforated types, suitable for different drilling needs. Our casing and screens provide superior protection to the borehole, preventing contamination and collapse. Our uPVC pipes are made of durable materials and are known for their high strength, impact resistance, and chemical inertness. Our experienced team can provide advice and support in selecting the right uPVC pipes, casing, and screens for each project which can be suitable for your water well drilling projects.

OUR PRODUCTS

DRILLING SPARE PARTS

ATR DRILL is a reliable supplier of high-quality spare parts for drilling machinery. We offer a wide range of parts, including bearings, seals, gaskets, filters, and other critical components that are essential to the efficient operation of drilling equipment.

Our experienced team can provide expert advice and support in selecting the right spare parts for specific drilling machinery, ensuring optimal performance and longevity of equipment. At ATR DRILL, we understand the importance of timely delivery of spare parts, and we strive to provide efficient and prompt delivery to minimize downtime in drilling operations.

ROTARY BITS

ATR DRILL is a trusted supplier of high-quality rotary bits for various drilling applications. Our rotary bits are made of top-grade steel and tungsten carbide materials to ensure maximum performance, durability, and longevity.

We offer a wide range of rotary bits, including tricone bits, PDC bits, and diamond bits, suitable for different drilling needs. Our experienced team can provide expert advice and support in selecting the right rotary bits based on the specific drilling requirements of our customers which will be useful for the water well, Geotechnical, Foundation Drilling & Oil and gas industries.

GEOTECHNICAL & DIAMOND TOOLS

At ATR Drill, we are committed to providing our customers with the best tools and equipment available in the industry. Whether you are working on a small geotechnical investigation or a large-scale mining project, our geotechnical and diamond tools are designed to meet your needs and deliver reliable results.

Our scope of supply includes a variety of diamond bits, reaming shells, and impregnated bits designed for geotechnical drilling. We also provide diamond coring bits, and other specialized diamond tools for use in a variety of drilling applications.

TOP HAMMER TOOLS

ATR Drill is a reliable supplier of top hammer tools for drilling projects. Our Supply includes a wide range of high-quality products designed to meet the unique needs of top hammer drilling applications.

Our top hammer tools include drill bits, shank adapters, extension rods, and other accessories designed for use in hard rock drilling. We offer a variety of sizes and shapes to accommodate different drilling needs and ensure efficient and accurate drilling operations. ATR Drill team can provide guidance and support to help you select the right top hammer tools for your specific project requirements.
